Postman	Swagger

EDUCATION

Codestack Academy

2020-2021

- 1000+ Hours of Instructor-led Coursework.
- Created full stack applications on teams and independently
- 3 month internship developing full stack web applications and learning under web developers and ui/ux specialists

WORK EXPERIENCE

Associate Web Developer

Codestack - San Joaquin County Office of Education April 2022 - Present

- Rebuilding full stack applications from the ground up using Angular 14+, Tailwind CSS, .net6 and SQL. These apps include DRDP (Desired Results Developmental Profile), IECMHC Network (California's Infant and Early Childhood Mental Health Consultation Network), and CAPTAIN's (California Autism Professional Training and Information Network) internal events and resource application.
- Managed deployment and environment setup for critical software release for IECMHC Network, including deployment to production environment.
- Maintaining local and statewide sites such as SEIS, CapsPD, CAHCC, Women Together Intl, California Career Center, and Stockton Mayor.
- Mentoring new students, interns, and junior web developers in React, Angular, .NET 6, SQL, and Tailwind CSS, while providing hands-on guidance and support throughout various projects.

Web Developer

Mike's Mobile Services August 2021 - April 2022

- Redesigned, developed, and managed full stack applications for the company's website in Angular 8 and the proprietary software, Bear Hands Pro using React, MongoDB, and NodeJS used by thousands of chimney inspectors nationwide.
- Created and developed Dasharama, Mike's Mobile's second proprietary software, designed to display sales numbers using React, NodeJS, MongoDB, and integration of the Service Titan api.
- Led the integration of the Customer Service Manager, Service Titan.
- Diagnosed and resolved technical issues, and performed maintenance on all hardware and software utilized by employees at Mike's Mobile, Bear Hands Pro, and CapCity MetalWorks.

Intern Junior Web Developer

Codestack - San Joaquin County Office of Education April 2021 - August 2021

- Independently developing the Mayor of Stockton website from conception to production release
- Updating and releasing new features on teacherscollegesj.edu
- Completing full stack tickets pertaining to seis.org in AngularJS, C#, and SQL
