Experience

CodeStack - San Joaquin County Of Education

Associate Web Developer April 2022 - Present

- Building full stack applications using Angular, TailwindCss, SCSS, .net6, and SQL. These apps include DRDP (Desired Results Developmental Profile), and Captain's (California Autism Professional Training and Information Network) internal events and resource application.
- Mentoring new interns and junior web developers in Angular and TailwindCss while guiding them through the DevOps process.

Mike's Mobile Services

Web Developer Aug 2021 - April 2022

- Redesigned, developed and managed full stack applications for the company's website in Angular and the proprietary software, Bear Hands Pro using MongoDB, Docker, NodeJS, Sass, and React, used by hundreds of chimney inspectors nationwide.
- Created and developed Dasharama, Mike's Mobile's second proprietary software to display sales numbers while leading in the integration of the CRM, Service Titan.
- Diagnosed and resolved technical issues and maintenance of all hardware and software used by all employees of Mike's Mobile, Bear Hands Pro, and CapCity MetalWorks.

CodeStack - San Joaquin County Of Education

Jr Web Developer Intern Apr 2021 - Aug 2021

- Developed, and updated full stack web applications, including the Mayor Of Stockton's website, and SEIS.org using HTML, CSS, JavaScript, SCSS, C#, AngularJS, and SQL.

Education

Codestack Academy

- 1000+ Hours of Instructor-led Coursework
- Fully remote, accelerated code school.
- Graduation Date: June 2021

Projects

SUSD CTE Site Redesign - 2021

- Redesigned the CTE pages for SUSD and implemented the design for around 20+ pages for multiple schools in the district, this change generated revenue and interest for the CTE pathways
